# Zitong Lu 路子童

(Update by 01/2026)

---

## Education & Training

### Massachusetts Institute of Technology

Boston, MA, USA

Postdoctoral Research Fellow, McGovern Institute of Brain Research

2025 –

\*Supported by Lore Harp McGovern 25<sup>th</sup> Anniversary Postdoctoral Fellowship

Advised by [Nancy Kanwisher](#) & [Evelina Fedorenko](#)

### The Ohio State University

Columbus, OH, USA

Ph.D. in Cognitive Neuroscience, Department of Psychology

2021 – 2025

\*Committee members: Julie Golomb, Andrew Leber, David Osher

Graduate Minor in Statistics, Department of Statistics

M.S. in Psychology, Department of Psychology

Advised by [Julie Golomb](#)

### East China Normal University

Shanghai, China

M.S. in Cognitive Neuroscience, School of Psychology and Cognitive Science

2018 – 2021

Advised by [Yixuan Ku](#), [Yong-Di Zhou](#) & [Huimin Wang](#)

### Northeastern University

Shenyang, China

B.E. in Software Engineering, Department of Software Engineering

2014 – 2018

## Research Interests

#### (1) Neural and behavioral mechanisms of visual and language processing:

(A) Behavioral mechanisms of object-location binding across eye-movements; (B) Neural mechanisms of depth and 3D perception; (C) Visual and semantic representations in human brains; (D) Amodal representations across visual and language modalities; (E) Interpretable representations in human brain language processing.

#### (2) Mapping representations between human brains and artificial neural networks:

(A) Brain-like artificial neural networks via neural alignment; (B) Image-to-Brain encoding models; (C) Inter-individual neural converters; (D) Reverse engineering to interpret neural mechanisms.

Using behavior, Eye-tracking, EEG, fMRI, computational methods and artificial deep neural networks.

## Publications

(Google Scholar: <https://scholar.google.com/citations?hl=en&user=bE5VCKsAAAAJ>)

\*: (co-)first author; <sup>‡</sup>: corresponding author

Number of (co-)first author papers: 16

Number of corresponding author papers: 15

06/03/2024 Memory and Emotion Lab, Sun Yat-sen University

[Invited Talk] Spatiotopic and retinotopic object-location binding across saccades in a more dynamic context  
05/31/2024 School of Psychology, Shenzhen University

[Invited Talk] Exploring Human Visual Mechanisms: Integrating Human EEG and Artificial Neural Networks  
05/20/2024 Vision Sciences Society (VSS) 2024

[Talk] Human EEG and artificial neural networks reveal disentangled representations of object real-world size in natural images  
05/19/2024 Vision Sciences Society (VSS) 2024

[Poster] Object size and depth representations in human visual cortex  
03/22/2024 CogNeuro Prosem, OSU

[Talk] Exploring human vision through Img2EEG: An encoding framework generating high-resolution temporal EEG signals from visual inputs  
12/07/2023 OSU CCBBI Research Day 2023

[Talk] Object size and depth representations in human visual cortex  
12/07/2023 OSU CCBBI Research Day 2023

[Poster] Human EEG and artificial neural networks reveal disentangled representations of object real-world size in natural images  
10/18/2023 Dept of Biomedical Engineering, Tsinghua University

[Invited Talk (virtually)] Generate your neural signals from mine: individual-to-individual EEG converters  
09/22/2023 OSU CCBS Retreat 2023

[Poster] Examining Hering's theory for color responses in human V1 and V4  
09/22/2023 OSU CCBS Retreat 2023

[Poster] The influence of a moving object's location on object identity judgments  
09/22/2023 OSU CCBS Retreat 2023

[Poster] The influence of task-irrelevant landmarks on spatiotopic localization and object-location binding  
09/14/2023 Advanced Computational Neuroscience Network (ACNN) 2023

[Poster] Generate your neural signals from mine: individual-to-individual EEG converters  
08/26/2023 Cognitive Computational Neuroscience (CCN) 2023

[Poster] Object real-world size representations in human brains and artificial neural networks  
07/2023 Annual Meeting of the Cognitive Science Society (CogSci) 2023

[Poster (virtually)] Generate your neural signals from mine: individual-to-individual EEG converters  
07/2023 Eye Movements Gordon Research Conference 2023

[Poster] Dynamic saccade context triggers more stable object-location binding  
07/2023 Eye Movements Gordon Research Seminar 2023

[Poster] Dynamic saccade context triggers more stable object-location binding  
05/23/2023 Vision Sciences Society (VSS) 2023

[Poster] A novel framework to study configural and holistic processing

| [Talk (virtually)] Representation comparisons between human brain and hierarchical deep convolutional neural network in face perception reveal a fatigue mechanism of repetition suppression   |                                                                 |
| 12/28/2020                                                                                                                                                                                     | Dept of Biomedical Engineering, UESTC                           |
| [Invited Talk (virtually)] Representational Analysis for Cognitive Neuroscience based on NeuroRA                                                                                               |                                                                 |
| 12/17/2020                                                                                                                                                                                     | Dept of Biomedical Engineering, Shenzhen University             |
| [Invited Talk] Representational Analysis for Cognitive Neuroscience based on NeuroRA                                                                                                           |                                                                 |

## Toolboxes & Tutorials

NeuroRA toolbox:

<https://zitonglu1996.github.io/NeuroRA> (193 stars on GitHub!)

Citation: Lu, Z., & Ku, Y. (2020). NeuroRA: A Python toolbox of representational analysis from multi-modal neural data. *Frontiers in Neuroinformatics*. 14:563669. <https://doi.org/10.3389/fninf.2020.563669>

Python EEG data analysis handbook:

<https://github.com/ZitongLu1996/Python-EEG-Handbook> (82 stars on GitHub!)

Chinese version:

<https://github.com/ZitongLu1996/Python-EEG-Handbook-CN> (508 stars on GitHub!)

## Programming & Experiment Skills

Computer Languages: Python, MATLAB, C, C++, Java, Julia

Software & Toolboxes: Psychtoolbox, EEGLAB, MNE-Python, BrainVogager, Freesurfer, Nibabel, Nilearn, NeuroRA, PyTorch

Experimental Experience: EEG, fMRI, and Eye tracker

## Working Experience

08/2022-08/2025

OSU EEG lab manager

Dept of Psychology, OSU

01/2024-08/2025

EEG Tech Search Committee

Dept of Psychology, OSU

08/2023-08/2025

CCBBI Technical Committee

Center for Cognitive and Behavioral Brain Imaging, OSU

08/2023-12/2023

Teaching Assistant (Co-Instructor) (PSYCH 5621 - Intro to ERP)

Dept of Psychology, OSU

08/2023-12/2023

Teaching Assistant (PSYCH 3310 – Sensation and Perception)

Dept of Psychology, OSU

08/2022-04/2023

Teaching Assistant (PSYCH 4510 - Cognitive Psychology Lab)

Dept of Psychology, OSU

09/2020-06/2021

Research Assistant

Brain-Like Memory Group, Peng Cheng Laboratory

05/2017-08/2017

Programmer (as Project Leader)

iSoftStone corporation

## Mentoring

Mengxin Ran (undergrad student at The Ohio State University; now lab manager at University of South Carolina w/ Feilong Ma)

Wanru Li (undergrad student at East China Normal University; now PhD student at Peking University w/ Pinglei Bao)

## Honors & Awards

2025      2025 Trainee Professional Development Award (TPDA) (USD 1,000, Society for Neuroscience)

2025-2027      Lore Harp McGovern 25<sup>th</sup> Anniversary Postdoctoral Fellowship (USD 100,000 \* 2 years, MIT)

2025      Summer Research Excellence Awards (USD 6,500, OSU Dept of Psychology)

2024      Summer Research Excellence Awards (USD 6,500, OSU Dept of Psychology)

2022      CCBBI Gibson Research Award (USD 3,000, OSU CCBBI)

2021-2022      University Fellowship (USD 30,000, OSU)

2021      Outstanding Graduate Student (3%, Department of Education of Shanghai City)

2019-2020      Short-Term Overseas Research Scholarship (about USD 7,000, by ECNU)

2018      Third prize (30%, China Graduate Student Mathematical Contest in Modeling)

|      |                                                                                   |
|------|-----------------------------------------------------------------------------------|
| 2017 | Outstanding Graduate Student (3%, Department of Education of Liaoning Province)   |
| 2017 | Second-Class Merit Scholarship (13%, by NEU)                                      |
| 2017 | Meritorious Winner (13%, Mathematical Contest in Modeling, by the U.S COMAP)      |
| 2016 | First-Class Liu Dajie & Fang Wenyu's Scholarship (<1%, USD 1500, by NEU)          |
| 2016 | Provincial First Prize (3%, China Undergraduate Mathematical Contest in Modeling) |
| 2016 | First-Class Merit Scholarship (3%, by NEU)                                        |
| 2016 | Honorable Mention (30%, Mathematical Contest in Modeling, by the U.S COMAP)       |
| 2015 | Second-Class Merit Scholarship (13%, by NEU)                                      |
